Professional Profile

Talented Fashion Designer with over 8 years' experience creating award winning product lines, and providing innovative fabric, trend and theme inspiration and direction for leading design corporations.

Imaginative and forward-thinking designer proficient in Adobe Photoshop and Illustrator with a passion for creating new fashions. Involved in all aspects of the design process from conception to textiles and tech packs. Proven history of successful collaborations with clients, brand managers and executives to deliver seasonal lines and specialised projects, alongside an excellent ability to identify target markets and deliver on emerging trends.

Career Summary

Jun 2019 - Present — **Calabra Designs, Sydney**
Fashion Designer

Outline

Working for a well-known fashion brand established in 2005, which can now be found in over 30 countries throughout the world including the USA, Canada, Australia, France, Italy, and Germany. Responsible for creating individual and accessible clothing lines using innovative fabrics and exciting prints that create new trends which define each season.

Key Responsibilities

- Using creative ability to design exciting and unique designs for production including creating seasonal trends and fabric boards
- Designing prints, graphics, and embroidery designs in line with emerging trends, ensuring the sampling, sourcing and design critical path is followed
- Developing commercial and on trend products for sale into the wider fashion market
- Sourcing appropriate fabrics and trims
- Producing samples to effectively communicate ideas to the Manufacturing Team
- Ensuring all garments are manufactured accurately and meet the excellent standards of the brand
- Preparing fashion ranges for selection by external partners
- Working closely with the Sales Team for feedback and completing any required revisions
- Liaising with manufacturers, suppliers, customers, and factories
- Completing fashion research, development and sourcing including world-wide travel

Key Achievements

- Designed a women's summer collection which was highly rated by leading fashion magazines and increased sales numbers by 40%.
- Created a highly acclaimed and successful women's fall collection that boosted sales by 30% relative to the previous year.
- Streamlined workflow processes between teams resulting in an average time saving of 120 hours per design project.

Jan 2016 - Jun 2019 — **WHW Womenswear, Sydney**
Junior Fashion Designer

Outline

Worked for a fashion-forward womenswear designer, creating fashions for the Australian high street. Responsible for designing commercial, on-trend womenswear as part of the wider Design Team.
